Your use of *The Canadian NTFP Business Companion* or any of its constituent components constitutes your acceptance of the following terms and conditions.

The Canadian NTFP Business Companion is an electronic publication consisting of a main document in Portable Document Format (PDF) and its associated support elements (documents, files, photographs, etc.) in various formats, any and all of which collectively are referred to here as “the materials”, “the software”, “the files”, “the package”, etc. The materials are distributed on optical disk media, referred to as a “CD” or “CD-ROM” even though the actual disk media may be a CD or DVD. The materials may also be distributed on a memory device commonly known generically as a “USB Flash Drive”. For licensing purposes, this media is to be included in references to “CD”.

All rights reserved. No part of this publication may be reproduced or transmitted in any form or by any means or process (electronic, digital, mechanical, optical, recording, photocopying, or otherwise), or stored in any information storage and retrieval system now known or to be invented, without permission in writing from the publisher, except that chapters and pages may be printed for reference purposes only. Photographs and images may not be used or reprinted apart from this document without the written consent of the respective owners and copyright holders.

Any rights granted to you constitute a license and not a transfer of title. You do not obtain any ownership right, title, or other interest in the copyrighted materials or trademarks by purchasing, downloading, installing, extracting, copying, printing, or otherwise using these materials, even if the materials are offered or given to you as a free sample, for preview, or for evaluation. You may acquire the physical distribution media (CD, DVD, USB Flash Drive, etc.), but you never own the copyrighted materials.

This publication may not be reproduced by any means without the written permission of the author or publisher. Likewise, it may not be resold except by arrangement with the author or publisher.

All logos and trademarks – whether registered or not – are property of their respective owners. All photographs & video clips are copyrighted by their respective owners and are used herein with permission and/or under license. They may not be used otherwise without permission of the owners. (Only photographs & video clips provided as separate standalone files in this package and explicitly designated for re-use may be used for other purposes, and only with permission in writing from the publisher.)

This publication and all of its constituent components are licensed for use on only one computer at a time. You may install the materials on a primary computer (such as a desktop) and on a secondary machine (such as a laptop or other reader) so long as they are accessed and used on only one machine at a time. Updates and upgrades – whether free or paid – are intended to replace existing software but do not increase the number of licenses you own or the number of computers licensed to run the software.

The "USB Flash Drive" version of this publication is for all intents and purposes identical to the optical media (CD or DVD) version. All copyright notices apply, all installation restrictions apply, and all end user license rights & restrictions apply. The Flash Drive itself is a transport mechanism only. We make no warranties as to the quality, function, properties, size, or capacity of the device; we make no warranties as to the permanence of any data contained thereon or later recorded thereon; and we make no warranties as to the further usability of the device now or in the future.

We hereby disclaim any and all liability for untoward results and/or for physical or other injury and/or for financial losses or business liabilities incurred by using, misusing, or not using information contained in or provided by *The Canadian NTFP Business Companion* or any of its constituent components.

We are not responsible for (nor do we endorse) the content, suitability, accuracy, operation, function, safety, or practices of any website or link provided in the documents. Some links may be redirected.
